

Michael Longerich

Lead Consultant / Tech Lead — Platform Engineering & Infrastructure

Chiang Mai, Thailand (GMT+7) · mlongerich@gmail.com · linkedin.com/in/mlongerich · github.com/mlongerich

SUMMARY

Tech lead and Lead Consultant at Thoughtworks — six years leading engineering teams and delivering enterprise-scale systems for airlines, agriculture, F&B, telecommunications, and government across APAC.

Currently leading a 20-person squad at an airline client (developers, QA, BA, PO, SM), driving ticketing flexibility and operational efficiency. I set technical direction, run architectural conversations, grow engineers, and keep delivery on track.

The practitioner side: I build platforms and infrastructure that let teams ship faster. This includes an Internal Developer Platform serving hundreds of engineers, and presented at xConf, Thoughtworks' annual global engineering conference.

AWS Certified Solutions Architect. Community lead for Thoughtworks' Platform Engineering and AI groups across APAC. German-Filipino background, raised in the US, based in Chiang Mai since 2007.

CORE AREAS

Technical Leadership

Squad lead for teams up to 20 (developers, QA, BA, PO, SM). Technical direction, architecture advisory, and delivery strategy. Stakeholder engagement from engineering teams to C-level. Active mentor and team culture builder.

Platform Engineering

Internal Developer Platform design and delivery. Developer experience tooling. Cloud-native architecture. IaC-first delivery pipelines. Conference talk on IDP delivery at scale (xConf, 2024).

Infrastructure Engineering

Kubernetes, Terraform, Helm, Docker. AWS (EKS, EC2, IAM, Lambda, CloudFormation, CloudWatch) and Azure. CI/CD with GitHub Actions, GoCD, and CircleCI. Observability with Grafana, Datadog, and CloudWatch.

AI & Automation

AI-enhanced engineering workflows and tooling integration. Claude API, OpenAI, agentic system design. Community lead for Thoughtworks' AI group across APAC.

EXPERIENCE

Thoughtworks — Lead Consultant / Tech Lead

Feb 2020 – Present | Remote, Thailand

Thoughtworks is a global technology consultancy. Six years as tech lead and lead consultant across multiple client engagements: airlines, government, fintech, telecommunications, SaaS, and real estate.

Technical Leadership

- Currently leading a 20-person squad at an airline client (developers, QA, BA, PO, SM) — improving ticketing flexibility and operational efficiency
- Set technical direction across multiple client engagements; ran architecture sessions and solution design from squad level to executive stakeholders
- Mentored junior and mid-level engineers; delivered training for internal Thoughtworks teams and client engineering teams
- Contributed to business development and sales pursuits

Advisory & Client Engagement

- Led technical and architectural workshops from engineering teams to C-level across APAC (Thailand, Singapore, Australia)
- Served as AWS Marketplace SME; guided partner integrations through technical requirements and go-to-market strategy
- Designed POCs and architectural solutions later adopted into client production systems

Platform & Infrastructure

- Built and deployed an Internal Developer Platform serving hundreds of engineers; spoke at xConf 2024 on the delivery and outcomes: [_"Our Adventures in Building an Internal Developer Platform"_](#) (with Raksit Mantanacharu)
- Engineered scalable cloud solutions on AWS — EKS, IAM, EC2, Lambda — across enterprise systems
- Implemented Infrastructure-as-Code using Terraform across multiple production environments
- Containerised and orchestrated workloads using Kubernetes, Docker, and Helm
- Built CI/CD pipelines with GitHub Actions, GoCD, and CircleCI; integrated observability stacks with Grafana, Datadog, and CloudWatch

Community & Mentoring

- Community lead for Thoughtworks' Platform Engineering group across APAC
- Community lead for Thoughtworks' AI group across APAC
- Active mentor and knowledge-sharer across internal and client engineering communities

Black Tangent — Software Developer

Dec 2018 – Sep 2019 | Singapore (Remote)

- Provisioned PNDA (Platform for Network Data Analytics) cluster on AWS using CloudFormation
- Built enterprise software for telecommunications using Ruby on Rails, React, and GraphQL
- Distributed agile team across multiple timezones

Prem Tinsulanonda International School — Information Systems Manager / Web Developer

Aug 2013 – Jul 2019 | Chiang Mai, Thailand

- Integrated information systems across departments; developed and maintained custom internal applications
- Planned and developed the school IT Strategic Plan
- Systems administration, IT support, and staff training

Projects For Asia Charitable Foundation — IT Manager / Director of IT [_\(Volunteer\)_](#)

May 2007 – Present | Chiang Mai, Thailand

Long-running volunteer engagement (19 years). Network administration, website and database systems, IT infrastructure maintenance and on-site repairs.

PERSONAL PROJECTS

Dashnote — AI meeting notes app [_\(in development\)_](#)

Audio → AI-structured meeting notes. Solo full-stack build. React Native, Supabase, OpenAI Whisper, Claude API. iOS and Android.

PFA Donation App — Nonprofit fundraising platform [_\(in development\)_](#)

Donation and fundraising platform for a mission trip nonprofit organisation. Full-stack web.

CERTIFICATIONS & SPEAKING

AWS Certified Solutions Architect – Associate

Validation: 3440ccd193a74c26acb93128a1dc8ebe

xConf 2024 — "Our Adventures in Building an Internal Developer Platform"

Thoughtworks annual global engineering conference. Co-presented with Raksit Mantanacharu.

Winner, Thailand Category — Codingame AI Bot Competition [_\(June 2017\)_](#)

TECHNICAL SKILLS

Area	Technologies
-----	-----

Cloud	AWS (EKS, EC2, IAM, Lambda, CloudFormation, CloudWatch) · Azure · GCP · DigitalOcean
Infrastructure	Kubernetes · Terraform · Helm · Docker
CI/CD & Observability	GitHub Actions · GoCD · CircleCI · Grafana · Datadog · CloudWatch
Languages	Ruby · Elixir · JavaScript · Python
Frameworks	Ruby on Rails · Phoenix · React · React Native · GraphQL
Databases	PostgreSQL · MySQL · Oracle

EDUCATION

Schiller International University — MA, International Relations and Diplomacy | London, 2006–2007 **Southville Foreign College** — BA, Business Administration (Information Technology focus) | 2003–2006

ADDITIONAL

- **Remote:** 6+ years in globally distributed agile teams across APAC, UK, and US timezones
- **APAC markets served:** Thailand, Singapore, Australia, India
- **Languages:** English (native/bilingual)
- **Background:** German national, raised in California, based in Southeast Asia since 2003; Chiang Mai since 2007
