

Michael Longerich

Lead Consultant / Tech Lead · Platform Engineering & Infrastructure

Location: Chiang Mai, TH (GMT+7)

mlongerich@gmail.com · linkedin.com/in/mlongerich · mlongerich.github.io/portfolio

summary

Tech lead and Lead Consultant with a record of leading engineering teams and delivering enterprise-scale systems across APAC. Industries served include airlines, agriculture, F&B, telecommunications, and government.

Practitioner and strategist: I set technical direction, grow engineers, and build the platforms and infrastructure that let teams ship faster.

core areas · capabilities

Technical Leadership

Squad lead for teams up to 20 (dev, QA, BA, PO, SM). Technical direction, architecture advisory, delivery strategy. Stakeholder engagement from engineering to C-level. Active mentor & culture builder.

Platform Engineering

Internal Developer Platform design & delivery. Developer experience tooling. Cloud-native architecture. IaC-first delivery pipelines. xConf 2024 talk on IDP delivery at scale.

Infrastructure

Kubernetes, Terraform, Helm, Docker. AWS (EKS, EC2, IAM, Lambda, CloudFormation, CloudWatch) & Azure. CI/CD: GitHub Actions, GoCD, CircleCI. Observability: Grafana, Datadog, CloudWatch.

AI & Automation

AI-enhanced engineering workflows & tooling integration. Claude API, OpenAI, agentic system design. Community lead for Thoughtworks' AI group across APAC.

experience

Thoughtworks · Lead Consultant / Tech Lead

Feb 2020 - Present · Hybrid, Thailand

- Currently leading a 20-person squad at an airline client (dev, QA, BA, PO, SM), improving ticketing flexibility and operational efficiency.
- Set technical direction across multiple engagements; ran architecture sessions and solution design from squad level to executive stakeholders.
- Built and deployed an Internal Developer Platform serving hundreds of engineers; spoke at xConf 2024, presenting "*Our Adventures in Building an Internal Developer Platform*" (with Raksit Mantanacharu).
- Engineered scalable AWS solutions (EKS, IAM, EC2, Lambda) and implemented Infrastructure-as-Code with Terraform across multiple production environments.
- Containerised and orchestrated workloads with Kubernetes, Docker, and Helm; built CI/CD pipelines (GitHub Actions, GoCD, CircleCI) with Grafana / Datadog / CloudWatch observability.

- › Led technical and architectural workshops from engineering teams to C-level across APAC (Thailand, Singapore, Australia).
- › Served as AWS Marketplace SME; guided partner integrations and go-to-market; designed POCs later adopted into client production systems.
- › Mentored junior and mid-level engineers; community lead for Thoughtworks' Platform Engineering and AI groups across APAC; contributed to business development.

Black Tangent · Software Developer

Dec 2018 – Sep 2019 · Remote, Singapore

- › Provisioned a PNDA (Platform for Network Data Analytics) cluster on AWS using CloudFormation.
- › Built enterprise telecommunications software with Ruby on Rails, React, and GraphQL in a distributed agile team across timezones.

Prem Tinsulanonda Int'l School · Information Systems Manager / Web Developer

Aug 2013 – Jul 2019 · Chiang Mai, Thailand

- › Integrated information systems across departments; developed and maintained custom internal applications.
- › Authored the school IT Strategic Plan; systems administration, IT support, and staff training.

Projects For Asia Charitable Foundation · IT Manager (Volunteer)

May 2007 – Present · Chiang Mai, Thailand

19-year volunteer engagement: network administration, website and database systems, IT infrastructure maintenance, and on-site repairs.

personal projects

Dashnote · AI meeting notes

Audio → AI-structured meeting notes. Solo full-stack build. React Native, Supabase, OpenAI Whisper, Claude API. iOS & Android.

PFA Donation App · fundraising platform

Donation and fundraising platform for a nonprofit organisation. Full-stack web.

certifications · speaking

- › **AWS Certified Solutions Architect – Associate.** validation: 3440ccd193a74c26acb93128a1dc8ebe
- › **xConf 2024 · "Our Adventures in Building an Internal Developer Platform."** Thoughtworks' annual global engineering conference. Co-presented with Raksit Mantanacharu.
- › **Winner, Thailand Category · Codingame AI Bot Competition.** June 2017

technical skills

cloud	AWS (EKS · EC2 · IAM · Lambda · CloudFormation · CloudWatch) · Azure · GCP · DigitalOcean
infrastructure	Kubernetes · Terraform · Helm · Docker
ci/cd · observability	GitHub Actions · GoCD · CircleCI · Grafana · Datadog · CloudWatch
languages	Ruby · Elixir · JavaScript · Python
frameworks	Ruby on Rails · Phoenix · React · React Native · GraphQL
databases	PostgreSQL · MySQL · Oracle

education

Schiller International University
MA, International Relations and Diplomacy
London · 2006–2007

Southville Foreign College
BA, Business Administration (IT focus)
2003–2006

environment

remote: 6+ years in globally distributed agile teams across APAC, UK, and US timezones.

markets: Thailand · Singapore · Australia · India.

languages: English (native)

background: German national, raised in California, based in SE Asia since 2003; Chiang Mai since 2007.
